

Spreader Bar for Forklifts

Forklift Spreader Bar - ELME has been proudly operating since the year 1974, becoming the biggest independent spreader business in the globe. They are a devoted maker of spreaders intended for numerous different applications like for instance the handling of containers, swop bodies and trailers.

Engineering is done in-house by using all of the newest FEM tools and CAD systems. The ELME company presently has more than 125 staff members. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside around the globe.

The ELME product collection offers spreaders for various container and trailer handling operations. Some of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks in addition to a wide variety of attachments.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they made more than 1150 spreaders by way of making use of top quality components to be able to ensure reliability and excellent standards while offering competitive prices. Major features of ELME comprise design simplicity, market reaction and ground-breaking modular spreader concept.
